Contents Volume 144, January 15, 1991

Chen Wanyi (Tianjin, Peoples' Republic of China)
Stabilizability, Controllability, and Observability of Linear Continuous-time Systems Defined Over a Commutative Banach* Algebra 1

Moussa Ouattara (Ouagadougou, Burkina Faso, West Africa)
Sur les *T*-Algèbres de Jordan 11

Sing-Cheong Ong (Mount Pleasant, Michigan, USA)
On Equality of Invariant Subspace Lattices of Operators 23

Moussa Ouattara (Ouagadougou, Burkina Faso, West Africa)
Sur les Algèbres de Bernstein d'Ordre 2 29

Xu Zhong (Xian, China)
An Algorithm for the Inversion of Quasi-Hessenberg Matrices 39

Joachim von zur Gathen (Toronto, Ontario, Canada)
Maximal Bilinear Complexity and Codes 49

David G. Obert (Duluth, Minnesota USA)
The Angle Between Two Cones 63

Lucas Jódar (Valencia, Spain)
Solving Algebraic and Differential Riccati Operator Equations 71

A. Bülent Özgüler and Nail Akar (Maltepe, Ankara, Turkey)
A Common Solution to a Pair of Linear Matrix Equations Over a Principle Ideal Domain 85

Wen Li (Guangzhou, Peoples' Republic of China)
The Relationship of a Regular Splitting to a Graph Compatible Splitting 101

Remo Gattazzo (Padova, Italy)
Polynomial Matrices With Given Determinant 107

C. B. Soh (Singapore)
Necessary and Sufficient Conditions for Interval Polynomials to Have Only Real Distinct Roots 121

F. K. Bell (Stirling, Scotland)
On the Maximal Index of Connected Graphs 135

T. L. Hayden, Jim Wells (Lexington, Kentucky, USA), Wei-Min Liu (Indianapolis, Indiana), and P. Tarazaga (Mayagüez, Puerto Rico)
The Cone of Distance Matrices 153

Li Ching (Zhangjiang, Guangdong, Peoples' Republic of China) and Chen Ji-Cheng (Guangzhou, Peoples' Republic of China)
On a Bound for the Hadamard Product of an *M*-Matrix and Its Inverse 171

Table of Contents Continued

H. Narayanan (Bombay, India)
The Principle Lattice of Partition of a Submodular Function 179

B. Najman and Q. Ye (Calgary, Alberta, Canada)
A Minimax Characterization for Eigenvalues
of Hermitian Pencils 217

Author Index 231
